

AI CatalyESt

6-Month Action Plan • May – October 2026

Team: Engineering Systems | Company: Siemens | Generated: 10 May 2026

Executive Summary

AI CatalyESt (where **ES** = Engineering Systems) is a 12-month initiative at Siemens to upskill our team of **16 members** across **5 domains** in Artificial Intelligence — from awareness to real-world application. This document outlines the action plan for the next 6 months (May – October 2026), covering phases **SPARK**, **BUILD**, and **APPLY**.

Domains represented: Cross-Functional (4), Manufacturing (3), OT & Automation (2), PLM (7)

Phase Overview

Phase	Months	Focus	Goal
SPARK	Apr – May 2026	Awareness & Curiosity	Introduce AI, build excitement, prompt basics
BUILD	Jun – Jul 2026	Skill Development	Hands-on prompt engineering, tool mastery
APPLY	Aug – Sep 2026	Real Projects	Apply AI to actual Siemens work, use cases
DELIVER	Oct 2026 – Mar 2027	Showcase & Impact	Present results, measure ROI, celebrate wins

Monthly Roadmap

[SPARK] Month 1 — April 2026

Event	Who's Who: AI Edition
Status	■ Completed
Date / Time	2026-04-14 11:30
Duration	90 minutes
Activity Type	Pre-worked
Seminar Topic	What is Generative AI and Why Should Engineers Care?

Skills Covered	Prompt engineering basics, image generation, iterative prompting
Description	AI Portraits & One-Liners — Each member crafts prompts and generates AI images for colleagues. Fun kick

[SPARK] Month 2 — May 2026

Event	Knowledge Sharing Session
Status	■ Upcoming
Date / Time	2026-05-07 14:00
Duration	60 minutes
Activity Type	In-session (Groups)
Presenter	Vigneshvar SA
Description	This seminar demystifies Generative AI—what it is, how it works, and where it’s already transforming engine

[BUILD] Month 3 — June 2026

Event	Prompt Battle Arena
Status	■ Upcoming
Date / Time	2026-06-09 14:00
Duration	90 minutes
Activity Type	In-session (Individual)
Skills Covered	Advanced prompt engineering
Description	Live prompt engineering tournament with Speed Round, Refinement Round, Domain Challenge, and Bonus

[BUILD] Month 4 — July 2026

Event	TBD
Status	■ Upcoming
Date / Time	2026-07-14 14:00
Duration	60 minutes
Activity Type	In-session (Individual)

[APPLY] Month 5 — August 2026

Event	TBD
-------	-----

Status	■ Upcoming
Date / Time	2026-08-11 14:00
Duration	60 minutes
Activity Type	In-session (Groups)

[DELIVER] Month 6 — September 2026

Event	AI CatalyESt Showcase: Grand Finale
Status	■ Upcoming
Date / Time	2027-03-09 14:00
Duration	120 minutes
Activity Type	Presentations + Celebration
Presenter	Gopalakrishnan Rajendran
Description	Final use case presentations to team and leadership. Judging panel scores. Annual leaderboard finale with
Notes	Extended session 1.5–2 hours. Star Points awarded to Top 3 bi-annual performers.

Team Roster

16 members across 4 domains:

#	Name	Domain	Role
1	Aravinthan Dhanabal	Manufacturing	—
2	Aswin Gangadharan	OT & Automation	—
3	Balaji M	PLM	—
4	Dharankumar N	PLM	—
5	Gopalakrishnan Rajendran	PLM	—
6	John Yabesh Johnson	Manufacturing	—
7	Minal Ramesh Nilange	Manufacturing	—
8	Pandiyarajan Nagarajan	Cross-Functional	—
9	Priyadharshani Varsha S	PLM	—
10	Rizwan Ali M	PLM	—
11	Saravanan Jayabalan	Cross-Functional	—
12	Sivakumar D	Cross-Functional	—
13	Soniya Dhayalan	OT & Automation	—
14	Tippu Sultan Shaik	PLM	—
15	Vidya Srivatsan	Cross-Functional	—
16	Vigneshvar SA	PLM	Initiative Lead

Key Milestones & Success Metrics

- Month 1 (Apr): Kickoff complete — all 16 members onboarded ■
- Month 2 (May): Knowledge Sharing Session — GenAI awareness established
- Month 3 (Jun): Prompt Battle Arena — hands-on prompt engineering skills
- Month 4 (Jul): BUILD phase activity — deeper tool mastery
- Month 5 (Aug): APPLY phase begins — real Siemens use cases
- Month 6 (Mar 2027): Grand Finale — showcase to leadership

Success Metrics

- 100% participation rate across all 16 members

- Each member completes at least 1 AI use case by Month 5
- Leaderboard engagement — points tracked monthly
- Survey satisfaction score ≥ 4.0 / 5.0 per session
- At least 3 use cases presented to leadership at Grand Finale
